

A Trip Around the Sun

Curriculum Connections - Québec

ELEMENTARY CYCLE 1 – SCIENCE AND TECHNOLOGY

Earth and Space

D. Systems and Interaction

1. Light and Shadow

- Describes the influence of the apparent position of the sun on the length of shadows

2. System involving the sun, the Earth and the moon

- Associates the sun with the idea of a star, the Earth with the idea of a planet, and the moon with the idea of a natural satellite

4. Seasons

- Describes the changes to the environment throughout the seasons (temperature, amount of daylight, type of precipitation)
- Explains the sensations experienced (hot, cold, comfortable) with regard to temperature measurements

F. Appropriate Language

1. Terminology Related to and Understanding of Earth and the Universe

- Appropriately uses terminology related to an understanding of the Earth and the universe
